

# New Baby Girl

## New baby Delivery Piece

Designed By Chris Horne

### Product Required:

- 1 x Anagram Baby Girl Scallop Standard Balloon (3364301)
- 1 x Anagram Welcome Baby MiniShape Balloon (3560802)
- 8 x 5" Fashion Pink Sempertex Balloons (20001969)
- 1 x 160 Fashion Pink Sempertex Balloon (20002717)
- 1 x 160 Fashion White Sempertex Balloon (20002714)
- 1 x 360 Fashion Pink Sempertex Balloon (20001306)
- 1 x Pink Tulle Fluffy Decoration (110812-109)
- Light Pink Tulle (340053-109)
- 1 x Pink Favour Bucket (268902-109)
- Small piece of floral foam for dry flowers, 1 x 60cm dowel rod, glue gun, narrow double sided tape.

Estimated Labour time: 15 minutes

### Construction Method:

1. Insert the dowel into the uninflated 360S balloon, stretch the balloon fully over the dowel and tie off. Glue the floral foam into the bottom of the bucket and insert the covered dowel.
2. Make 2 clusters of 4 balloons with the 5" Pink latex, one to 3.5" and one to 3". Wrap them together to form a collar and wrap this onto the top of the dowel.
3. Inflate the standard foil balloon with air. Run a strip of double-sided tape all around the seam, then tie it into the collar of 5" latex balloons.
4. Inflate the pink 160S balloon to about 18" (45cm) and twist a string of small, evenly sized bubbles. Twist the knot end into the latex collar, then lay the string of bubbles along the seam of the foil balloon (onto the double-sided tape) all around the balloon. Twist the other end into the collar, deflating any unnecessary bubbles.
5. Repeat step 4 with the white 160S balloon, wrapping the bubbles around the dowel from the collar to the foam. Tie off at the bottom and deflate any unnecessary bubbles.
6. Fluff out the Tulle Fluffy, and push into the bucket, gluing in place, to conceal the mechanics. Add a bow of tulle to the collar.
7. Inflate the MiniShape balloon with air, heat seal, and add to the bucket, gluing in place.

**Extra weight can be added to the bucket if desired, before adding the fluffy decoration.**  
**Note that this design can be easily adapted for baby boys by changing the colours and the design of the foil balloon!**

# Birthday Sunshine

## Birthday Celebration

Designed By Chris Horne

### Product Required:

4 x Anagram Clear Crystal Clearz (8284111,02))

4 x 12" Sempertex "Happy Birthday Sunshine" Pastel Matte  
your colour choice (20012458)

16 x 5" Sempertex Pastel Matte, 4 of each colour to match 12"  
2" wide satin ribbon to match latex balloons

Small sand or water weight

Stretchy balloon tape

White curling ribbon

Estimated Labour time: 15 minutes

### Construction Method:

1. Pre-stretch the 12"/28cm Latex balloons by inflating fully with air and deflating, two or three times.
2. Create the double balloons by putting a small puff of air into the Clearz, then inserting the latex balloon until the necks are level. Inflate the latex balloon with helium until it's about 8"/20cm in diameter, and spherical. Then inflate the Clearz balloon with helium until it measures 18"/45cm. Use the neck of the latex balloon to wrap around several times and seal the Clearz. Add an air-filled cluster of 5"/13cm latex balloons as a collar and fly on matching satin ribbon.
3. Create a 4th double balloon, this time with air, in the same way. This time, the collar should be inflated to 4"/10cm. Tie the small sand or water weight into the collar.
4. Take a piece of white curling ribbon approx. 24"/60cm long and stick it to the top of the air-filled Clearz balloon with stretchy balloon tape. Use this to attach the ribbons from the helium filled balloons in a staggered arrangement.
5. Make 3 small bows of the satin ribbons, tying round with white curling ribbon, and tie to the point where the ribbons are tied to the Clearz balloon. Trim of any white curling ribbon that shows.
6. Add a final small bow in matching satin ribbon to the base as shown.

# Ombre Mickey

## Juvenile Birthday

Designed By Chris Horne

### Product Required:

- 1 x Mickey Mouse Forever Ombre Supershape (4073601)
  - 1 x Mickey Mouse Forever 6 Mid-Size Number (4170701)
  - 3 x 5" Reflex Crystal Red Sempertex Balloons (20014505)
  - 2 x 5" Fashion Black Sempertex Balloons (20001988)
  - 4 x 12" Reflex Crystal Red Sempertex Balloons (20014504)
  - 4 x 12" Fashion Black Sempertex Balloons (20000781)
  - 3 x 260 Fashion Black Sempertex Balloons (20002814)
  - 1 x Black Foil Balloon Weight (991365-10)
- Balloon Bond

Estimated Labour time: 25 minutes

### Construction Method:

1. Create a 4-balloon cluster of 2 x 12" Fashion Black balloons and 2 x 12" Reflex Crystal Red balloons inflated to 9". Wrap the cluster around the neck of the foil balloon weight.
2. Create a 4-balloon cluster of 2 x 12" Fashion Black balloons and 2 x 12" Reflex Crystal Red balloons inflated to 6". Attach this to the cluster of 9" balloons by pulling one of the necks of the 9" balloons up through the centre and tying it to a neck from one of the 6" balloons.
3. Inflate the Number balloon with air, then use one of the black 260 balloons to attach it securely and tightly to the top of the latex balloon clusters, using the bottom left tab as an attachment point.
4. Inflate the Ombre Mickey head with air and tie the neck tightly to the top left tab on the top of the number. (A scrap of 260 balloon may help to secure)
5. Create a 4-balloon cluster inflated to 3" of 2 x 5" Reflex Crystal Red balloons and 2 x 5" Fashion Black balloons and wrap this tightly between the Ombre Mickey Head and the Number balloon.
6. Inflate one of the 260 Fashion Black balloons to approximately 26" and twist a string of 26 x 1" bubbles. Tie one end into the cluster of 5" balloons under the Mickey Head on the left side, and the other end into the cluster of latex balloons at the base. Small pieces of balloon bond may be required to keep the bubbles in place.
7. Repeat step 6 with the other Fashion Black 260 balloon, this time twisting 20 bubbles. Attach to the right side of the number balloon as shown, using balloon bond where required.
8. Inflate the remaining 5" Crystal Red balloon to about 2" and attach to the base as shown with balloon bond.

**NOTE: NUMBERS CAN BE SUBSTITUTED – BE AWARE THAT THE ATTACHMENT POINTS MAY VARY.**

# Ombre Minnie

## Everyday Juvenile Birthday

Designed By Chris Horne

### Product Required:

- 1 x Minnie Mouse Forever Ombre SuperShape (4073701)
  - 1 x Minnie Mouse Forever 3 Mid-Size Number (4013801)
  - 8 x 5" Reflex Pink Sempertex Balloons (20014168)
  - 4 x 12" Metallic Fuchsia Sempertex Balloons (20000859)
  - 4 x 12" Metallic Black Sempertex Balloons (20000887)
  - 2 x 5" Metallic Black Sempertex Balloons (20002037)
  - 1 x 260 Reflex Pink Sempertex Balloon (20014178)
  - 2 x 260 Metallic Fuchsia Sempertex Balloons (20002863)
  - 1 x Black Foil Balloon Weight (991365-99)
- Balloon Bond

Estimated Labour time: 20 minutes

### Construction Method:

1. Create a 4-balloon cluster of 12" Metallic Black balloons inflated to 9". Wrap the cluster around the neck of the foil balloon weight.
2. Create a 4-balloon cluster of 12" Metallic Fuchsia balloons inflated to 6". Attach this to the cluster of black balloons by pulling one of the necks of the black balloons up through the centre and tying it to a neck from one of the fuchsia balloons.
3. Create a 4-balloon cluster of 5" Reflex Pink balloons inflated to 4". Attach this to the Fuchsia cluster in the same way.
4. Inflate the Number balloon with air, use one of the Fuchsia 260 balloons to attach it securely and tightly to the top of the latex balloon clusters, using the bottom right tab for attaching.
5. Inflate the Ombre Minnie head with air and tie the neck tightly to the top left tab on the top of the number. (A scrap of 260 balloon may help to secure)
6. Create a 4-balloon cluster of 5" Reflex Pink balloons inflated to 3" and wrap this tightly between the Ombre Minnie Head and the Number balloon.
7. Inflate the Metallic Fuchsia 260 balloon and twist it into a bow. Inflate a 5" metallic black balloon to approximately 2" and tie into the centre of the bow. Attach the bow to the top of the number by wrapping around the top right tab.
8. Create another bow with the 260 Reflex pink and remaining 5" metallic black balloons and attach as shown in the image using balloon bond.

**NOTE: NUMBERS CAN BE SUBSTITUTED – BE AWARE THAT THE ATTACHMENT POINTS MAY VARY.**

# UNICORN BIRTHDAY

Created By Chris Horne, Amscan International Limited.

Simple but elegant, this “on trend” design is certain to make a huge statement!

## Product Required:

- 1 x Anagram Rainbow Unicorn SuperShape (31299-01)
- 4 x 11” Happy Birthday Latex (9900704)
- 1 x Medium Primary Twirlz (8231001)
- Co-ordinating Balloon Ribbon
- 1 x Rainbow Paper Fluffy Decoration (18056-90-55)
- 1 x 15cm white ceramic tile

## Construction Method:

1. Tie a length of balloon ribbon around the tile in a cross pattern, to create an attachment point in the centre of the glazed side. Leave 2 x 45cm tails.
2. Remove the ribbon from the fluffy decoration, unfold it, and divide it into 2 halves (4 sheets of tissue). Refold the two halves, and set one aside to use in another design.
3. Tie the “half fluffy” to the tile around its midpoint, using the tails of balloon ribbon.
4. Inflate the Unicorn SuperShape balloon

with helium, attach it to a ribbon, and then to the centre of the tile/fluffy base.

5. Inflate the 4 latex balloons with helium to 9”, using Hi-Float if desired.
6. Tie the latex balloons into a cluster of 4, and wrap around the base of the Unicorn Foil balloon.
7. Add the Twirlz tail to the centre of the latex cluster.
8. Fluff up the fluffy at the base, separating the layers fully for the best effect.

**Estimated Labour time: 10 minutes.**
