The Big Book of Decorator Balloons

Hi There, Decorators

We're Back!

Here we are with a brand-new Big Book of Decorator products, and it's bigger than ever before! We've pulled together all of our coordinating lines from our latest drop of Sempertex latex and Amscan and Anagram foil balloons!

How do they do it?

We've included a "here's how" of the global balloon brand Sempertex, from the history behind this long established company, to how they are making steps to be more **sustainable**.

Look out for new products from Sempertex including Reflex prints and more **NEW 18"** sized latex, perfect for larger displays and that trending style of organics.

In addition to this, you'll find the eagerly awaited **new trend** colours from Sempertex including **Fashion Latte**, **Reflex Champagne** and **Reflex Truffle**. These team perfectly with our hero colours White Sand and Eucalyptus, a continuing botanical trend that maintains their place in the colour combination charts!

Also included are our **new** range of **Amscan solid colour** and **Silk Lustre** foils. The perfect addition to your designs, these items are also packaged in **sustainable packaging** and banded with paper rather than in a plastic bag. Just one of the many steps we're taking on our sustainability journey.

Don't forget to check out our **online resources**. We've included some examples inside this edition, including some of our **favourite colour mixes** and **double stuffed palettes**, as well as tools for corporate and more traditional décor. More tips, tricks, ideas and recipes can all be found online at www.amscan.co.uk You'll also find a handy **cut-out-and-keep colour chart** too which you'll definitely want to add to your toolkit.

New to all this?

Don't worry we've got this! You can sign up to one of our many training courses or demonstration days at your local wholesaler by visiting our hub and seeing where we're going to be. In addition to this, our **YouTube** channel also hosts a wide range of **how-to videos**, so be sure to sign up to our channel, Amscan International, and we will help you through all those questions you have concerning **"how do you actually do that?!"**.

We hope this continues to support your creativity; we'd love to see how you're getting along and feature your work, so reach out to us on our social platforms, or tag us on Instagram @amscanuk

Lastly, but by no means least, **THANK YOU** to our cover star creator **@Angharads_party_art**. And also, to all of those balloon artists who have shared some wonderful balloon creations inside the BBOD! Their work is tagged inside, so be sure to check them out!

Happy Ballooning!

The History of Sempertex

The manufacture of high-quality balloons in Colombia started in 1938 in Barranquilla, a seaport on the coast of the Caribbean Sea, at the initiative of Austrian-born Emil Loewy. Over the years, this initiative took shape to become Sempertex S.A., world leader in latex balloons for decoration and entertainment.

Our privileged geographical position allows us to import the best available materials in the global market, add value and thus deliver the best latex balloons under a unique promise: Quality, Price & Service.

Our Purpose

To generate happiness worldwide bringing inspiration and innovation to every celebration.

Our Vision

To be a global leading brand, present in every special moment, generating pride and value to our stakeholders in a sustainable way.

Our Policies

We are committed to the achievement of excellence and business leadership, based on understanding the context, knowledge of risks and opportunities, the purpose of the organisation, the ongoing improvement of its processes and legislation applicable to:

Quality

Guarantee the total satisfaction of our customers and exceed their expectations by supplying high quality products.

Control & Security

Guarantee a safe and reliable supply chain, allowing the integrity of the people, facilities and processes for the continuity of the organisation.

Environment

Adopt a culture of sustainable development based on the rational use of resources in order to prevent pollution and protect the environment.

We're also proud to support Colombian latex tree forests that have replaced illegal crops.

Security & Health

Promote the highest level through the culture of self-care and compliance with the Golden Rules, generating safe environments for all our stakeholders within the company.

Reasons To Choose Sempertex

Natural Latex

They are made of pure, natural rubber latex. No fillers, extenders, plasticisers or any cost-reducing agents are used.

Comfort

Our balloons are designed to allow artists and decorators to work for extended periods without their fingers suffering. A soft formulation with the correct level of moisture provides a generous degree of stretch, which together with great tensile strength minimises discomfort when tying.

Innovation

Our creative marketing team interacts directly with end users and is constantly developing initiatives, strategies and on-trend designs in different markets around the globe.

Variety of texture & Colour...

Each colour in our palette is associated with a specific colour code from the Pantone® Matching System (PMS). Our colour palette is constantly updated in line with fashion and new global trends.

High Quality Standards

Our balloons have excellent helium and air retention due to a high-tech and sophisticated molecular cross-link which creates a high quality barrier, reducing gas permeability. Low burst levels are achieved by great elasticity of the rubber film. Long Helium Flotation or Air Inflation = Long Lasting Décor

High Quality Printing

Superior quality inks (EN-71 approved), larger printing areas and more vibrant and solid colours deliver the highest visual impact.

amscan®

Member of

EUROPEAN BALLOON & PARTY COUNCIL

THE BALLOON AND PARTY PROFESSIONALS ASSOCIATION

Partnered with

Expertise

Since 1938, Sempertex has been devoted to manufacturing high quality latex balloons with a solid promise: Innovation, Quality and Colour.

State of the art Technology

Strong research and development allows us to constantly innovate across our entire business, from the chemical composition of the latex through the complete manufacturing process, allowing us to deliver high-tech balloons.

High Quality Standards

Appropriate and rigorous controls in our manufacturing process assure a consistent colour inventory, reducing colour variations between different production batches.

Global Brand

Our brand is synonymous with professionalism, ethics, innovation and quality. Our operation is totally aligned with the requirements of our most demanding customers on five continents.

Best Resources

Human talent, quality raw materials, state of the art technology and the highest professional standards are the main elements of our company.

Perfect Shine & Density

Completely transparent and clean original film delivers perfect shine, translucence and purity to every colour and texture.

Nature First
La Natureza Primero

Certifications

Natural Latex

Our balloons are 100% natural latex.

Extraction

Our balloons are manufactured from the sap of the rubber tree, best known as **LATEX**.

End Product

No fillers, extenders, plasticisers or any cost reducing agents are used to create our latex balloons.

Manufacturing

The rubber sap is then transformed to balloons through different processes, whilst maintaining its natural condition.

We're also proud to support Colombian latex tree forests that have replaced illegal crops.

Responsible use

We encourage the responsible practice when using our balloons;

Don't let go.

Use a weight.

Inflate safely!
Use a pump.

Dispose of responsibly!

for more information about safe practices visit www.partysafe.eu/balloons

By-Product

Committed to a better environment, Sempertex has developed Duro, the new line of pet rubber toys, made from leftover materials & recycled balloons. We're working on bringing this to life ASAP!

State of the Art Technology

A strong capacity of research and development, allows us to innovate in a broad scope that includes the chemical and manufacturing process, enabling us to deliver HIGH-TECH balloons.

We are aware of the importance of an adequate use of natural resources, a fundamental pillar in the design of our production equipment which minimises and optimises the consumption of water, electricity, & natural gas.

High Quality Standards

Appropriate & rigorous controls in our manufacturing process assure consistent COLOUR reducing conflicts between different production batches.

Innovation

Using our wealth of experience and latest technology, our team is CONSTANTLY developing NEW products inspired by global trends.

Foil & Latex Balloons

Our Balloon Guide to Sustainable Fun!

Balloons have been a part of all our lives for as long as we can remember, always there to **bring joy** and mark our most important milestones! Let us help future generations have the same memorable experiences, by using them responsibly. Here are some of the things you can do to make a difference. **But first a couple of facts:**

Did you know?

Latex balloons are made from natural latex also known as rubber. This raw material is obtained from the rubber tree. The rubber trees do a great job at filtering CO2 from the air, helping us reduce pollution.

Latex balloons are biodegradable, latex itself is a renewable raw material and the trees are not hurt in the extraction process (rubber tapping).

Our latex balloons have an excellent helium and air retention, due to a sophisticated molecular cross-link which creates a high-quality barrier, reducing gas permeability. They also fulfill the highest safety and quality standards.

Our foil balloons are reusable. The easiest way to deflate the balloons is by inserting a small tube at least 7 cm into the balloon and pressing gently. And not to mention we prioritise air filled vs. helium, which means that the balloons are less likely to float away and end up in the environment.

What can you do?

Supervise small children and pets when celebrating with balloons and always pick up broken latex balloons immediately, as they can be dangerous for children under 8 years and pets.

Be mindful of allergies. As all our latex balloons are 100% natural rubber latex, they may cause an allergic reaction to some people. Always use a pump to inflate.

Refill and re-use foil balloons when possible. We guarantee the quality will stay the same every time.

... Do not release balloons outdoors, always properly tie them, or use a balloon weight. Balloons do not belong in nature.

Always dispose of your balloons responsibly. If you are unsure about the correct disposal route, check with your local authorities.

Teach children to pick up after themselves, especially after a fun water balloon fight.

Find fun and creative ways to repurpose used balloons or balloon scraps in DIY projects.

Resources

Our Decorator Hub

Run by Amscan's Educational Marketing team, this section of our website is dedicated to providing a host of resources to help and inspire. You'll find a large library of step-by-step instruction sheets for lots of different designs and occasions, help and support for all your Conwin and Hi-Float questions, safety information and lots, lots more.

1. Grab your phone 2. Open up your camera
3. Hover over the QR code

Step by Step Guides

Step by Steps, Instruction sheets, How-To's, Recipes... call them what you will - this is where you get to help yourself to all the balloon designs and inspiration we have to offer.

We have a selection of great balloon designs that you can view, print, or save and add to your "Ideas Book" - we don't mind what you do with them, so long as you use them!

Keep revisiting as we're regularly updating the resources!

Choose from any of the 5 following categories, Birthday, Everyday Occasions, Seasonal & Themed!

Training Courses

We have been developing an extensive education program, which are being rolled out to our wholesalers and also here at Amscan HQ. Suitable for all, whether you are new to the industry or a balloon veteran!

Via the Decorator Hub you can find a link to the training schedule, which details the various training courses and demonstration days taking place across the country, with more dates being added on a weekly basis. Check it out now, to see if there's a date near you!

Socialise with Us!

Learn, create and have fun with us! We're excited this content helps us share skills, comments and feedback among our industry members and it's exciting to see everyone's creations, through our multiple platforms!

Don't forget to tag us in your amazing creations!

Spiral Garland Chart

This table gives the approximate number of balloons per foot of garland for balloon sizes 3" to 16"			This table gives the approximate number of balloons per metre of garland for balloon sizes 8cm to 41 cm		
Size of balloons (inches)	Balloons per foot of garland		Size of balloons (cms)	Balloons per metre of garland	
	4 cluster	5 cluster		4 cluster	5 cluster
3.0	20.2	25.2	8.0	66.7	83.2
3.5	17.3	21.6	9.0	57.1	71.3
4.0	15.1	18.9	10.0	49.8	62.4
4.5	13.4	16.8	11.0	41.2	55.4
5.0	12.1	15.1	13.0	39.9	49.8
5.5	11.0	13.7	14.0	36.3	45.2
6.0	10.1	12.6	15.0	33.3	41.6
6.5	9.3	11.6	17.0	30.7	38.3
7.0	8.6	10.8	18.0	28.4	35.6
7.5	8.1	10.1	19.0	26.7	33.3
8.0	7.6	9.5	20.0	25.1	31.4
8.5	7.1	8.9	22.0	23.4	29.4
9.0	6.7	8.4	23.0	22.1	27.7
9.5	6.4	8.0	24.0	21.1	26.4
10.0	6.0	7.6	25.0	19.8	25.1
10.5	5.8	7.2	27.0	19.1	23.8
11.0	5.5	6.9	28.0	18.2	22.8
11.5	5.3	6.6	29.0	17.5	21.8
12.0	5.0	6.3	30.0	16.5	20.8
12.5	4.8	6.0	32.0	15.8	19.8
13.0	4.7	5.8	33.0	15.5	19.1
13.5	4.5	5.6	34.0	14.9	18.5
14.0	4.3	5.4	36.0	14.2	17.8

To calculate the approximate* number of balloons required, multiply the finished length of the garland by the number of balloons per foot or metre of garland. Be sure to refer to the correct column. (4 or 5 balloons per cluster / measurement in feet or centimetres).

Example: A 20 foot garland of 11" balloons inflated to 10" in a 4 balloon cluster would require approximately the following number of balloons: 20 x 6.0 = 120 balloons.

Example: A 20 metre garland of 28cm balloons inflated to 25 cm in a 4 balloon cluster would require approximately the following number of balloons: 20 x 19.8= 396 balloons.

* Balloon quantity may vary as much as 20% depending on how tightly the balloon clusters are packed.

Tips For Maximum Float Life

Use ULTRA HI-FLOAT

Inflate balloons fully

Use the recommended clip on the pump dispenser

Run a heater or air-conditioner to lower humidity

Ideal temperature for balloons is 22°C to 26°C

Keep HI-FLOAT treated balloons out of direct sunlight

Use Balloon Transport Bags

Now Amscan branded!

PREMIUM SMART SIZER
1 PC

Premium Balloon Accessories Premium Smart Sizer

- Three dedicated outlets for all variations of balloons makes this machine ideal for both retailers and decorators.
- The 360° rotating inlet prevents the coiling of hoses, this machine can be used with helium, nitrogen or compressed air.
- The built in digital timer allows for perfect and fast sizing of all latex balloons with second and tenths of second adjustment.
- This inflator has an inflation count with the option to increase, decrease or reset the counting completely.
- Operation is via foot pedal, keeping both hands free, or via a manual button on top of the machine.
- Included with this machine is high quality protective carry case which allows for safe transportation to off-site locations. This machine looks great on the counter in your store, as well as out on the road.

Built in digital timer for perfect sizing of latex balloons

Legenda B322 Precision Balloon Inflator

- Professional machine that inflates and digitally sizes two balloons with air at the same time.
- Inflator of choice for many of the top balloon artists in the world.
- Accurately inflates all types and sizes of latex balloons including modelling balloons.
- Balloons can be inflated one at a time or two at a time, to the same size or different sizes, with digital accuracy. There is also an option to inflate manually, by holding down the button or foot pedal.
- Internal fans keep the machine from overheating, allowing continuous use over a long time.
- The digital counter keeps track of the number of balloons inflated, with the ability to adjust the count if a balloon pops, and the smart black metal construction gives a very professional appearance.
- Operation is via a foot pedal, keeping both hands free, or via a manual button on top of the machine.
- The machine is easily transported using the built-in folding carry handle, or in it's own smart, padded tool bag.

Solid metal casing suitable for a shop counter

Inflation Equipment

CN991670
Mini Cool-Aire Inflator and Foot Pedal
 (UK Plug)
 1 PC

A powerful mid-range air inflator, intermittent or continuous operation.

An electric air inflator specifically designed to inflate both latex and foil balloons – without damaging the valves of the foils.

994763
Mini Coolair pro
 (UK Plug)
 1 PC

CN990482
Mini Cool-Aire Inflator
 (UK Plug)
 1 PC

The Premium FoilPro™ has a special flexible hose for those hard to reach speciality foil balloons. It also comes with a foot pedal to allow hands-free air inflation of balloons.

Uses Premium's "Cool Aire® Technology" with low-speed motor to inflate with cooler air. No risk of damaging self-sealing valves and eliminates topping up when air cools down!

Flexible extension hose allows simple inflation of all valve compartments.

Hands-free foot pedal inflates multi-compartment foils fast and easy.

FOILPRO
Foil Pro Inflator

Balloon Inflation

Helium makes balloons float. It's a non-toxic inert gas and is perfectly safe when used correctly.

- 1 Latex Nozzle
- 2 Tank Cylinder Valve (on/off)
- 3 Regulator Connector
- 4 Foil Nozzle

foil nozzle

Use to inflate all foil balloons except Orbz™ balloons.

latex nozzle

Use with caution! Use to inflate Orbz™ balloons. Should NOT be used with foil balloons.

incorrect nozzle

DO NOT use with foil balloons!

Balloon Inflation

Insert the foil nozzle carefully into the valve opening.

Always hold the balloon straight when inflating. If the valve is bent, it might become damaged.

Inflate balloon slowly and let air fill smaller parts before inflating body completely. Otherwise, the body may overinflate and damage the balloon.

Orbz™ inflation

For proper Orbz™ inflation instructions using the Latex Nozzle, scan this code.

Inflated balloons should yield slightly when you push on them. If the balloon is not flexible anymore, it is overinflated.

Ribbon Attachment

It is your responsibility to make sure that helium-filled balloons do not escape and float away. Before inflating an Anagram balloon, you must attach a ribbon and weight (or attach a ribbon and secure it to a fixed object). This helps to ensure that the balloon can be retrieved if it is accidentally released.

Tie the balloon at the "Tie Ribbon Here" line using a regular knot or the method described below.

Do not tie the balloon above the "Tie Ribbon Here" line. This may damage the valve and helium will escape faster.

Tie a loop with your finger.

Fold the neck of the balloon once & place the loop over it.

Fold the neck of the balloon over the loop again and pull down firmly.

tape
attachment

You can also tape the ribbon to the back of the tail, opposite the punch hole. Use a heavy-duty clear adhesive tape. Household adhesive tape may not securely adhere.

Weight Attachment

If you're not sure which weight to use, attach an 8-gram weight to the balloon and then inflate it. Let go of the balloon for a split second to see if the weight holds it down. If not, try a heavier weight designed for larger balloons or bouquets.

Balloon Category	Appropriate Weight
Standards, Junior Shapes	8 grams
Orbz™, UltraShapes™, SuperShapes™	25–50 grams
Jumbos	40–60 grams

Reel Weights™

A Reel Weight™ is specially designed to be attached to wire fixtures — such as those in grocery stores — allowing it to be 'hooked on' and merchandised. A Reel Weight™ has two parts: the ribbon spool and an adapter that fits into the spool to weigh down larger balloons.

Use with Standard balloons

Add adapter to use with balloons larger than Standard

attaching a Reel Weight™

- Place the tape tab on the back of the balloon tail opposite the valve opening. Press firmly to make sure the tab adheres.
- Leave the ribbon wrapped around the spool for now. This will keep ribbons from tangling when you move balloons to the sales floor.

adding a Reel Weight™ adapter

An adaptor is needed for balloon sizes larger than Standard. Insert the adaptor into the spool after attaching the ribbon to the balloon. If you insert the adaptor first, you will cover the tape tab.

Turn over the ribbon spool

Match the notches on the spool to the grooves on the adapter

Snap the adapter into place

Sempertex & Hi-Float - The Legal Bit

All R-12 Satin Pearl and Metallic Balloons are manufactured on super-sized forms. Although the uninflated balloons look larger than other balloons of the same sizes, they are designed to inflate to the same size as Fashion, Pastel and Crystal colours. The listed average inflation sizes, lift ability, flying time, and numbers of balloons per helium tank are a conservative average. Actual flying times vary depending on temperature and atmospheric conditions. All Sempertex® latex balloons are manufactured in Colombia from 100% natural and biodegradable rubber latex. The use of ULTRA HI-FLOAT™ balloon flight extender is recommended for all helium-filled latex balloons. ULTRA HI-FLOAT™ can increase the flying times of latex balloons up to 25 times longer than untreated balloons. For more information about ULTRA HI-FLOAT™ call from outside the US 001 502-244-0984 or visit www.hi-float.com

THE HIGHEST QUALITY AND SAFETY STANDARDS

ISO 9001:2008 Certification

Sempertex's complete operations have implemented a formal Quality System certified by Bureau Veritas Certification. This assures that our quality management systems comply with the requirements of ISO 9001:2008 and accounts for: DESIGN, DEVELOPMENT, MANUFACTURING, AND DISTRIBUTION OF LATEX BALLOONS.

ALL OUR PRODUCTS COMPLY WITH THE DIRECTIVE 2009/48/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 18 JUNE 2009 ON THE SAFETY OF TOYS:

EN 71-1:2014 / EN 71-2:2014 / EN 71-3:2013+A1:2014 / EN 71-9:2005+A1:2007 / EN 71-10:2010 / EN 71-11:2005 / EN 71-12:2013
Regulation (EC) No 1272/2008 (CLP) / Regulation (EC) No 1907/2006 (REACH).

Globally Safe

All Sempertex® products comply with the requirements of the mandatory consumer safety regulations of the following countries and regions: USA, Argentina, Australia, Brazil, Canada, China, Colombia, Europe, Japan, Mexico, New Zealand, Singapore, South Korea, South Africa, Russia, Israel, Malaysia & Thailand, among others.

Terms & Conditions

AMSCAN INTERNATIONAL LIMITED TERMS AND CONDITIONS OF TRADING - SALES CORRECT AT THE TIME OF PRINTING JULY 2022

1. INTERPRETATION

In these Terms and Conditions, the following expressions will have the following meanings unless inconsistent with the context:

"Acknowledgement"	Amscan's written acknowledgement of the Order;
"Amscan"	means Amscan International Limited with company registration number 0126979 and registered office address: Brudenell Drive, Brinklow, Milton Keynes, Buckinghamshire, MK10 0DA
"Business Day"	a day, other than a Saturday, Sunday, or public holiday in England, when banks in London are open for business;
"Buyer"	the person(s), firm or company whose order for the Products is accepted by Amscan as detailed in the Credit Application Form;
"Commencement Date"	has the meaning given in Condition 2.5;
"Contract"	the contract between Amscan and the Buyer for the sale and purchase of the Products in accordance with these Conditions;
"Data Protection Legislation"	all applicable data protection and privacy legislation in force from time to time in the UK including the UK GDPR; the Data Protection Act 2018 (and regulations made thereunder) and the Privacy and Electronic Communications Regulations 2003 (SI 2003/2426) as amended and all other legislation and regulatory requirements in force from time to time which apply to a party relating to the use of Personal Data (including without limitation, the privacy of electronic communications).
"Delivery"	completion of delivery of Products specified in an Order in accordance with Condition 6.1;
"Delivery Date"	the date specified for delivery of an Order as notified by Amscan to the Buyer in accordance with Condition 6.3
"Delivery Location"	the address for delivery of the Products, as set out in the Acknowledgement;
"Force Majeure Event"	events, circumstances, or causes beyond a party's reasonable control;
"Group"	means in relation to a company, that company and any other company which, at the relevant time, is that company's holding company or subsidiary (as defined by section 1139 and 1162 of the Companies Act 2006) or the subsidiary of any such holding company; "Online Marketplace" any Amazon website including Amazon.co.uk or Amazon.com or any other online marketplace or bidding sites as notified by Amscan to the Buyer from time to time in writing;
"Order"	an order for the Products submitted by the Buyer;
"Price"	Amscan's published price list in force at the Commencement Date;
"Products"	any products which Amscan supplies to the Buyer (including any of them or any part of them) under a Contract;
"Specification"	the specification of the Products as issued by the manufacturer Amscan;
"Terms and Conditions"	the standard terms and conditions of sale set out in this document together with any special terms agreed in writing between the Buyer and Amscan.

2. FORMATION AND INCORPORATION

- Subject to any variation under Condition 12.5, the Contract will be upon these Terms and Conditions, to the exclusion of all other terms and conditions and all previous oral or written representations including any terms or conditions which the Buyer purports to apply under any purchase order, confirmation of order or similar document, whether or not such document is referred to in the Contract, or any other terms that the Buyer seeks to impose or incorporate, or which are implied by law, trade custom, practice or course of dealing.
- The Contract is made up of the following:
 - The Terms and Conditions.
 - The Acknowledgement.
 - The Order.
 - The Credit Application Form.
- If there is any conflict or ambiguity between the terms of the documents listed in Condition 2.2, a term contained in a document higher in the list shall have priority over one contained in a document lower in the list.
- Each Order will be deemed to be an offer by the Buyer to purchase Products upon these Terms and Conditions.
- The Contract is formed when the Order is accepted by Amscan by way of an Acknowledgement. The contract will come into existence when Amscan issues an Acknowledgement, ("Commencement Date"). Subject to Condition 6.3, the Buyer may not cancel the Contract. Amscan may cancel the Contract at any time prior to delivery.
- Minimum Order value is £500 exclusive of VAT, unless otherwise agreed in writing by Amscan.
- Any samples, drawings, descriptive matter, or advertising produced by Amscan, and any descriptions or illustrations contained Amscan's catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Products referred to in them. They shall not form part of the Contract nor have any contractual force.

3. DESCRIPTION

- The quantity and description of the Products will be as set out in Amscan's Acknowledgement, or the Specification. The Buyer is responsible for ensuring that all details contained in the Acknowledgement and/or relevant Specification(s) are complete and accurate.
- Amscan may make any change to the Specification, design, materials or finishes of the Products which are:
 - required to conform with any applicable safety, statutory or regulatory requirement; or
 - do not materially affect their quality or performance.

4. PRICE AND PAYMENT

- Subject to Condition 4.7, the price for the Products will be the price set out in Amscan's published price list current at the Commencement Date or as otherwise notified by Amscan in writing.
- Unless otherwise specified in Amscan's Acknowledgement, or when Amscan accepts the Order, the price for the Products is:
 - inclusive of any costs of packaging and carriage; and
 - exclusive of VAT and any other applicable sales tax or duty which will be added to the sum in question at the prevailing rate, subject to the receipt of a valid VAT invoice.
- Amscan may invoice the Buyer for the Products on or at any time after delivery, or where the Buyer wrongfully fails to take delivery of the Products, in which event Amscan shall be entitled to invoice the Buyer for the price at any time after Amscan has notified the Buyer that the Products are ready for collection or (as the case may be) Amscan has tendered delivery of the Products.
- Payment is due in full in cleared funds within 30 days of the date of an invoice, (or such other period of time as is agreed in writing by Amscan), or upon termination of the Contract, whichever occurs first.
- All payments to be made by the Buyer under the Contract will be made in full without any set-off, restriction or condition and without any withholding, deduction for, or on account of any counterclaim, unless expressly agreed in writing by a director of Amscan. Time for payment shall be the essence of the Contract.
- If any sum payable under the Contract is not paid when due then, without prejudice to Amscan's other rights under the Contract, that sum will bear interest from the due date until (and including) the date payment is made in full, both before and after any judgement, at the rate of 4% per month, calculated and charged monthly and Amscan will be entitled to suspend deliveries of the Products until the outstanding amount has been received. In addition, without prejudice to any other remedy of Amscan, Amscan may claim compensation from the Buyer under the Late Payment of Commercial Debts (Interest) Act 1998 (as amended).
- Amscan may revise its price lists from time to time without informing the Buyer, but may increase the price for the Products between the date of acceptance of order and delivery if there is an increase in the cost of raw materials, labour and/or other production or material costs, increases in costs by Amscan's suppliers, changes in the types or rates of tax contributions, duties, surcharges or levies, in the event of foreign exchange fluctuations, a request by the Buyer to change the delivery date/quantities and any delay by the Buyer to give Amscan adequate or accurate information or instructions, provided that notice is given to the Buyer before delivery.

5. INSTALLMENTS

- Amscan may deliver the Products by separate instalments. Each instalment will be a separate Contract and no cancellation or termination of any one Contract relating to an instalment stage will entitle the Buyer to repudiate or cancel any other Contract or instalment. Any delay in delivery or defect in an instalment shall not entitle the Buyer to cancel any other instalment. Each separate instalment or stage will be invoiced and paid for in accordance with the provisions of the Contract.

6. DELIVERY

- The Delivery of the Products is completed when Amscan places the Order at the Buyer's disposal at the Delivery Location at any time on or before the Delivery Date.
- If the Buyer fails to take delivery on the Delivery Date at the time notified by Amscan in writing, or provide any necessary documents, then unless that failure or delay is caused by Amscan's failure to comply with its obligations under the Contract, the Products will be deemed to have been delivered and Amscan, without prejudice to its other rights, may at its option:
 - store or arrange for storage of the Products until actual delivery or sale and charge the Buyer for all related costs and expenses (including, without limitation, storage, and insurance); and/or
 - following written notice to the Buyer, sell any of the Products at the best price reasonably obtainable in the circumstances and charge the Buyer for any shortfall below the price under the Contract.
- Amscan will use reasonable endeavours to deliver each of the Buyer's orders for the Products within the time agreed when the Buyer places an Order and, if no time is agreed, then within a reasonable time, but the time of delivery will not be of the essence. If, despite those endeavours, Amscan is unable for any reason to fulfil any delivery or performance on the specified date, or there is a shortfall in the quantity of the Products delivered, Amscan will be deemed not to be in breach of the Contract, nor will Amscan have any liability to the Buyer for direct, indirect or consequential loss (all three of which terms includes, without limitation, pure economic loss, loss of profits, loss of business, loss of anticipated savings, depletion of goodwill) however caused (including as a result of negligence) by any delay or failure in Delivery except as set out in this Condition 6.3. All shortfalls or discrepancies must be notified to Amscan in writing within 48 hours of Delivery. If Amscan fails to Deliver the Products, Amscan's liability shall be limited to the costs and expenses incurred by the Buyer in obtaining replacement goods of similar description and quality in the cheapest market available, less the price of the Products. Any delay in Delivery will not entitle the Buyer to cancel the Order unless and until the Buyer has given 45 days' written notice to Amscan requiring the delivery to be made and Amscan has not fulfilled the delivery within that period. Amscan shall have no liability for any failure to Deliver the Products to the extent that such failure is caused by a Force Majeure Event, or the Buyer's failure to provide Amscan with adequate delivery instructions or any other instructions that are relevant to the supply of the Products.
- If the Buyer cancels the order in accordance with Condition 6.3 then:
 - Amscan will refund to the Buyer any sums which the Buyer has paid to Amscan in respect of that Order or part of the Order which has been cancelled; and
 - the Buyer will be under no liability to make any further payments under Condition 4 in respect of that Order or part of the Order which has been cancelled.
- The Buyer must notify Amscan if not all of the Products scheduled to be delivered are delivered at the time agreed for Delivery:
 - by telephone no later than 48 hours after such time, or
 - in writing no later than 48 hours after such time.

7. RISK/TITLE AND RESALE

- Risk in the Products will pass to the Buyer upon Delivery.
- Notwithstanding anything contained herein to the contrary, nothing herein shall relieve the Buyer of its obligation to pay Amscan, and (subject to Condition 7.8) title to and ownership of the Products will not pass to the Buyer until the earlier of:
 - the date that Amscan has received, in full in cleared funds all sums due to it in respect of:
 - the Products; and
 - all other sums which are, or which become due to Amscan from the Buyer on any account.
 - the date the Buyer resells the Products, in which case title in those Products shall pass at the time of payment of all such sums.
- The Buyer's right to possession of the Products and the Buyer's right to resell or use the Products under Condition 7.8 will terminate immediately if any of the circumstances set out in Condition 10.1 occur or if Amscan reasonably believes that any such event is about to happen and notifies the Buyer accordingly.
- Until title passes to the Products, the Buyer shall:
 - store the Products separately from all other goods held by the Buyer so that they remain readily available as Amscan's property;
 - not remove, deface, or obscure any identifying mark or packaging on or relating to the Products.

- maintain the Products in satisfactory condition and keep them insured against all risks for their full price from the date of delivery
- Amscan will be entitled to recover payment for the Products notwithstanding that title in any of the Products has not passed from Amscan, or where the Buyer has resold or used the Products.
- Where Amscan is unable to determine whether any Products are the products in respect of which the Buyer's right to possession has terminated, the Buyer will be deemed to have sold all products of the kind sold by Amscan to the Buyer in the order in which they were invoiced to the Buyer.
- If the Buyer's right to possession of the Products terminates, but the Buyer has paid for the Products, Amscan shall be entitled to issue the Buyer with a credit note for all or any part of the price of the Products paid for by the Buyer together with value added tax thereon.
- Subject to Condition 7.3 and Condition 7.8, the Buyer may resell or use the Products in the ordinary course of its business (but not otherwise) before Amscan receives payment for the Products. However, if the Buyer resells the Products before that time:
 - it does so as principal and not as Amscan's agent; and
 - title to the Products shall pass from Amscan to the Buyer immediately before the time at which resale by the Buyer occurs.
- At any time before title to the Products passes to the Buyer, Amscan may:
 - by notice in writing, terminate the Buyer's rights under Condition 7.8 to resell the Products or use them in the ordinary course of its business; and
 - require the Buyer to deliver up all the Products in its possession that have not been resold, or irrevocably incorporated into another product and if the Buyer fails to do so, enter any premises of the Buyer or of any third party where the Products are stored in order to recover them and the Buyer grants Amscan, its agents and employees an irrevocable licence at any time to enter any premises where the Products are or may be stored in order to inspect them, or, where the Buyer's right to possession has terminated, to recover them.
- On termination of the Contract, however caused, Amscan's (but not the Buyer's) rights contained in this Condition 7 will remain in effect.
- The Buyer agrees that it will not resell any Products through the Online Marketplace.

8. LIABILITY OF AMSCAN

- Amscan warrants that (subject to the other provisions of these Terms and Conditions) on Delivery and for a period of 6 months from the date of Delivery the Products will be free from defects in material or workmanship. Amscan shall not be liable for a breach of the warranty in this Condition 8.1 if:
 - the Products have been improperly altered in any way whatsoever or have been subject to misuse or unauthorised repair.
 - the Products have been improperly installed or connected.
 - any instructions as to storage of the Products have not been complied with in all respects; or
 - the Buyer has failed to notify Amscan of any defect or suspected defect within 14 days of Delivery where the defect should be apparent on reasonable inspection, or within 14 days of the same coming to the knowledge of the Buyer where the defect is not one which should be apparent on reasonable inspection, and in any event no later than 6 months from the Delivery Date.
- Subject to Condition 8.1 if any Product does not conform to the warranty in Condition 8.1 Amscan shall, at its option, either refund the price of such Product, or replace such Product. If Amscan so requests the Buyer shall return the Product which does not conform with the warranty in Condition 8.1 to Amscan.
- Subject to Conditions 8.6 and 8.7 Amscan's maximum aggregate liability for any breach of the warranty in Condition 8.1 (whether in contract, tort, breach of statutory duty, restitution or otherwise) will be limited to the price of the Product.
- Any Products which have been replaced will belong to Amscan. Any replacement Products will be warranted under the terms specified in Condition 8.1 for the unexpired portion of the 6 month period from the original date of delivery of the replaced Products.
- In the event of any breach of Amscan's express obligations under Conditions 6.3, 8.1, 8.2 and 8.4 above the remedies of the Buyer will be limited to damages.
- Amscan does not exclude or limit its liability (if any) to the Buyer:
 - for breach of Amscan's obligations arising under section 12 Sale of Goods Act 1979 or section 2 Supply of Goods and Services Act 1982.
 - for personal injury or death resulting from Amscan's negligence.
 - for defective products under the Consumer Protection Act 1987.
 - for fraud or fraudulent misrepresentation.
 - for any matter for which Amscan is not permitted by law to exclude or limit (or to attempt to exclude or limit) its liability.
- Subject to Conditions 6.3 and 8.1 to 8.6, Amscan will be under no liability to the Buyer whatsoever (whether in contract, tort (including negligence), breach of statutory duty, restitution or otherwise) for damage or any special, indirect or consequential loss (all three of which terms include, without limitation, loss of profits, loss of business, depletion of goodwill) however caused arising out of or in connection with:
 - any of the Products, or the manufacture or sale or supply, or failure or delay in supply, of the Products by Amscan or on the part of Amscan's employees, agents, or sub-contractors.
 - any breach by Amscan of any of the express or implied terms of the Contract.
 - any use made or resale by the Buyer of any of the Products, or of any product incorporating any of the Products; or
 - any statement made or not made, or advice given or not given, by or on behalf of Amscan or otherwise under the Contract.
- Subject to Conditions 6.3 and 8.1 to 8.6, Amscan hereby excludes to the fullest extent permissible in law, all conditions, warranties and stipulations, express (other than those set out in the Contract) or implied, statutory, customary or otherwise which, but for such exclusion, would or might subsist in favour of the Buyer.
- Each of Amscan's employees, agents and sub-contractors may rely upon and enforce the exclusions and restrictions of liability in Conditions 6.3, 8.3 and 8.5 to 8.7 in that person's own name and for that person's own benefit, as if the words "its employees, agents and sub-contractors" followed the word Amscan wherever it appears in those conditions save each reference in Condition 8.1.
- Subject to Conditions 8.2, 8.6 and 8.7 Amscan's aggregate liability under these conditions (whether in contract by way of indemnity or otherwise) or tort (including negligence) breach of statutory duty (restitution or otherwise) for any damage or loss however caused will be limited to the price of the Products except as expressly provided in these Conditions.
- The Buyer acknowledges that the above provisions of this Condition 8 are reasonable and reflected in the price which would be higher without those provisions, and the Buyer will accept such risk and/or insure accordingly.

9. FORCE MAJEURE

- Amscan will not be liable to the Buyer for any failure or delay or for the consequences of any failure or delay in performance of the Contract, if it is due to any Force Majeure Event and the time for performance of any obligations shall be extended by a period equivalent to the period during which performance of the obligation has been delayed or prevented.

10. TERMINATION

- Amscan may by written notice terminate the Contract immediately if any of the following events happen, or Amscan reasonably believes that such events are about to happen:
 - the Buyer suspends, or threatens to suspend, payment of its debts, or is unable to pay its debts as they fall due or admits inability to pay its debts, or (being a company) is deemed unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986, or (being an individual) is deemed either unable to pay its debts or as having no reasonable prospect of so doing, in each case, within the meaning of section 228 of the Insolvency Act 1986, or (being a partnership) has any partner to whom any of the foregoing apply;
 - the Buyer commences negotiations with all or any class of its creditors with a view to rescheduling any of its debts or makes a proposal for or enters into any compromise or arrangement with its creditors other than (where the Buyer is a company) where these events take place for the sole purpose of a scheme for a solvent amalgamation of the Buyer with one or more other companies or the solvent reconstruction of the Buyer.
 - (Being a company) a petition is filed, a notice is given, a resolution is passed, or an order is made, for or in connection with the winding up of the Buyer, other than for the sole purpose of a scheme for a solvent amalgamation of the Buyer with one or more other companies or the solvent reconstruction of the Buyer.
 - (Being an individual) the Buyer is the subject of a bankruptcy petition or order.
 - a creditor or encumbrance of the Buyer attaches or takes possession of, or a distress, execution, sequestration, or other such process is levied or enforced or sued against, the whole or any part of its assets and such attachment or process is not discharged within 14 days.
 - (Being a company) an application is made to court, or an order is made, for the appointment of an administrator or if a notice of intention to appoint an administrator is given or if an administrator is appointed over the Buyer.
 - (Being a company) a floating charge holder over the Buyer's assets has become entitled to appoint or has appointed an administrative receiver.
 - a person becomes entitled to appoint a receiver over the Buyer's assets or a receiver is appointed over the Buyer's assets.
 - any event occurs, or proceeding is taken, with respect to the Buyer in any jurisdiction to which it is subject that has an effect equivalent or similar to any of the events mentioned in Condition 10.1 to Condition 10.8 (inclusive);
 - the Buyer suspends, threatens to suspend, ceases, or threatens to cease to carry on all or substantially the whole of its business.
 - the Buyer's financial position deteriorates to such an extent that in Amscan's opinion the Buyer's capability to adequately fulfil its obligations under the Contract has been placed in jeopardy; and
 - (Being an individual) the Buyer dies or, by reason of illness or incapacity (whether mental or physical), is incapable of managing his or her own affairs or becomes a patient under any mental health legislation.
- The termination of the Contract however arising is without prejudice to the rights, duties, and liability of either the Buyer or Amscan accrued prior to termination. The conditions which expressly or impliedly have effect after termination will continue to be in force notwithstanding termination.

11. DATA PROTECTION

- Both parties will comply with all applicable requirements of the Data Protection Legislation. This Condition 11.1 is in addition to and does not relieve, remove, or replace a party's obligations or rights under the Data Protection Legislation.
- Amscan shall comply with its Data Protection Policy which may be found at: Privacy Policy; Amscan International.
- GENERAL
- Time for performance of all obligations of Amscan is not of the essence.
- Each right or remedy of Amscan under the Contract is without prejudice to any other right or remedy of Amscan whether under the Contract or not.
- If any condition or part of the Contract is found by any court, tribunal, administrative body or authority of competent jurisdiction to be illegal, invalid or unenforceable then that provision will, to the extent required, be severed from the Contract and will be ineffective, without, as far as possible, modifying any other provision or part of the Contract and this will not affect any other provisions of the Contract which will remain in full force and effect.
- No failure or delay by Amscan to exercise any right, power or remedy will operate as a waiver of it, nor will any partial exercise preclude any further exercise of the same, or of any other right, power or remedy.
- Save as set out in the Contract, these Terms and Conditions may only be varied or amended in writing and signed by a director of Amscan.
- Amscan may assign, delegate, license, hold on trust or sub-contract all or any part of its rights or obligations under the Contract.
- The Contract is personal to the Buyer who may not assign, delegate, license, hold on trust or sub-contract all or any of its rights or obligations under the Contract without Amscan's prior written consent.
- The Contract contains all the terms which Amscan and the Buyer have agreed in relation to the Products and supersedes any prior written or oral agreements, representations or understandings between the parties relating to such Products. The Buyer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of Amscan which is not set out in the Contract. Nothing in this Condition 12.8 will exclude any liability which one party would otherwise have to the other party in respect of any statements made fraudulently.
- Save as set out in Condition 8.7.6 the parties to the Contract do not intend that any of its terms will be enforceable by virtue of the Contracts (Rights of Third Parties) Act 1999 by any person not a party to it. Amscan may vary or rescind the Contract without the consent of any officer, employee, agent, or sub-contractor of Amscan.
- Any notice in connection with the Contract will be in writing addressed to the other party at its registered office, or principal place of business and will be delivered by hand, or first class or special delivery post. The notice will be deemed to have been duly served, if delivered by hand, when left at the proper address for service or if made by pre-paid, first class post or special delivery post, 48 hours after being posted.
- The formation, existence, construction, performance, validity, and all aspects whatsoever of the contract or of any term of the contract will be governed by English law. The English courts will have exclusive jurisdiction to settle any dispute which may arise out of, or in connection with the Contract. The parties agree to submit to that jurisdiction.
