

**2023**

# Our Key Points

***The secret of Grabo's success lies in the 3 key factors of which we pride ourselves deeply.***

***They are the 3 pillars of which we have developed our soul. The first pillar is sustainability, the second pillar is quality. And last but not least, we are trending. Tour around the catalogue and find out more about us.***

## quality

Grabo is on the forefront on the sustainability battle. Pushing with emphasis the “do not release policy”, treating the balloon product not only as a one-time gadget but as a long-term toy or a memento.

But more – much more – has been done away from the spotlight of balloons: Terre di Grabo is a sound reality of the group; Tenuta Gaiano, the wine cellar, was officially launched 6.12.22; the Grabo farm, Yurt and garden are all open and functioning. The acres we take care of in the Amazon rainforest are continuing to grow and secure the trees from deforestation.

# sustainability

Quality for Grabo is the cornerstone on which all is built. First of all, the high quality of the balloons, given by the latest equipment and, especially the extra human love we pour into our controls and checks; secondly the quality underlying every step of Grabo's path. In this case quality is the dedication Grabo puts into its ideas.

But most of all, quality is a human factor: the quality of Grabo's client base, built especially from friends, honest workers, dedicated artists, brilliant entrepreneurs.

# trend

Lastly, but not "least", trend. Trend has been Grabo's ultimate target. In a world that travels at an extremely high pace, being up to date with the latest trends is fundamental.

The ability of designers to create the perfect design; the competence of the sales team to listen to the market; the capability of the staff in choosing the right design.

All this teamwork adds to one thing: Beauty.

# Cr

What a ride it has been!

In many ways 2022 was a memorable year. It has been the year where restrictions have been lifted: the year that promised us the start of a new normality, only to discover that a new normality still does not exist to this day.

Pandemic, logistic problems, galloping inflation, a new unexpected war, helium problems.

We did not manage to escape one of these scourges.

How we feel is well, first of all in a time of crisis we must be brave and strong. We must not indulge in fear or weakness.

As a matter of fact, Crisis in the etymology of its word comes the Greek word choice.

Every obscure moment has underling opportunities in it.

And secondly – well, thanks God we do balloons. And for this we must remain optimistic. Let's face it, they are beautiful and joyful; secondly, shhh! but this is a countercyclical business. There will always be a little, teeny tiny, budget for a child's party, a loved one's occasion, a small smile for a retiring colleague, a balloon surprise for Christmas.

# Grabo Balloons - The Best

So being optimistic now is key, and we have all the reason to be!

We got scared with covid, but we managed to do an outstanding job!

We got anxious with the lockdowns, but Grabo balloons were flying around from house to house, venue to venue.

Last year and this year.

For the coming year we have decided to surprise you with...

I don't want to spoil anything so I am just gonna give a few teasers before you dive into the catalogue.

The helium supply is getting tighter and tighter and in order to face this issue we have decided to expand our air-filled range and increase in size our stand-ups with a special patented new product.

We have focused on expanding (again) our number range, adding colours to make sure Grabo is always on top of its game, and always the largest producer of number balloons.

The new solid colours and globes will make an impact and the new Grabo shapes will again make a difference for the business.

Betallic, has managed to surpass itself again if possible, by designing stunning creations.

The new launches of '22 and the coming ones will literally blow you away. The innovation and beauty they put into the balloons is sheer artistic genius. Maureen, a true artist, has done it again!

So, we know we have a good variety of tools to make sure that 2023 will be another successful year.

On the last note, we would like to thank and give our best to Ed Buschbacher, man of great values, high capability and good heart, President of Betallic for many years, who is leaving his place to the former VP of sales David Wolf, a great and extremely competent man.

To these two people, two friends of ours, with whom we have created stupendous ideas and fought many battles, we truly and deeply wish our best.

To Ed, to David, to all our friends throughout the world, to new customers we have not met, and to new ones we have not dreamt about yet.

To all,

We wish you the Best

# Don't Let

# GO

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasion. As responsible balloon professionals, we want to protect our environment from any unnecessary litter. We have therefore taken the decision to not support balloon releases.

We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. We would be pleased to find a beautiful alternative for your event.

***Please dispose  
of all balloons  
responsibly.***

# Don't Let

# GO

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasion. As responsible balloon professionals, we want to protect our environment from any unnecessary litter. We have therefore taken the decision to not support balloon releases.

We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. We would be pleased to find a beautiful alternative for your event.

***Please dispose  
of all balloons  
responsibly.***

# Don't Let

# GO

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasion. As responsible balloon professionals, we want to protect our environment from any unnecessary litter. We have therefore taken the decision to not support balloon releases.

We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. We would be pleased to find a beautiful alternative for your event.

***Please dispose  
of all balloons  
responsibly.***

# Don't Let

# GO

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasion. As responsible balloon professionals, we want to protect our environment from any unnecessary litter. We have therefore taken the decision to not support balloon releases.

We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. We would be pleased to find a beautiful alternative for your event.

***Please dispose  
of all balloons  
responsibly.***
