Process

1. To make your string of 360s, start by inflating your first 360.

2. Twist a bubble around 20cm long and tie a knot in the 360 after this.

Click the image to see it in action!

3. Take the end of the 360 and cut the tip off.

Twisted Flower Heads

By Alberto Falcone

BMTV 582

Process

4. Inflate a bubble in the end, the same size as the first. Tie a knot after the bubble.

5. Repeat step 3 until you have four equal-sized bubbles in the 360.

Click the image to see it in action!

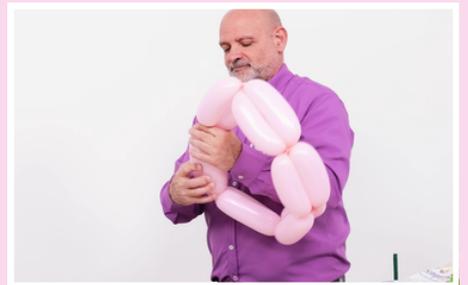

6. Repeat steps 1 to 4 with two other 360s. You should have twelve bubbles overall. Tie these in a big circle.

7. Press the circle together so it forms two rows of six bubbles.

8. Twist each pair of bubbles together.

9. Tie each end of the rows together so it forms a double-layered hexagon.

10. Repeat steps 1 to 6 to make a second 360 bubble loop.

11. Take three 5" Pastel Matte Lilac balloons and inflate two to 3" and one to 2.5". Tie these into a triplet.

12. Repeat step 11 five more times so that you have six triplets overall.

Twisted Flower Heads

By Alberto Falcone

BMTV 582

Process

Click the image to see it in action!

13. Twist these into your 360 loop, between every other bubble.

14. Now, twist each of these triplets between every bubble on the 360 hexagon you made. You'll start to see the flower shape at this point.

15. Flip the flower over so the 'pointed' bubbles are flat against the surface you're working on.

16. Twist each of your 5" triplets so that the smallest balloon is on the outside of the hexagon.

17. Inflate a 360 and twist a bubble 30cm long and tie a knot after this.

18. Cut the tip of this 360 and inflate another 30cm bubble in this end of the 360. Tie this off.

19. Inflate two 5" Pastel Matte Lilac balloons to 3" and tie them to each end of the 360.

20. Repeat step 16 to 18 two more times.

21. Twist all of these 360s together at their centre points.

Twisted Flower Heads

By Alberto Falcone

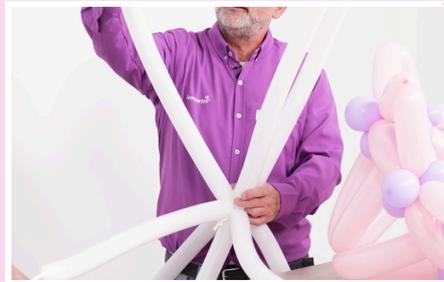

BMTV 582

Process

22. Take each 5" latex on the end of the 360s and feed these between each pair of bubbles of the double-layered hexagon. This will form the back of the flower.

23. Inflate eight Fashion White 260s, then use their necks to tie them all together.

Click the image to see it in action!

24. Using one neck from this group of 260s, tie them to the inside of the flower at the centre of the 360 bubbles to finish.
