Balloon Christmas Tree

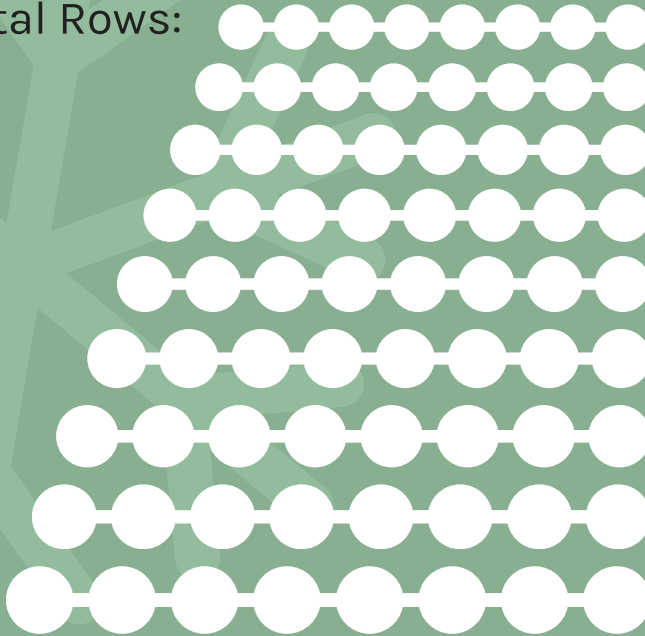

By Naomi at Theballoonchristmastree BMTV 564

Process

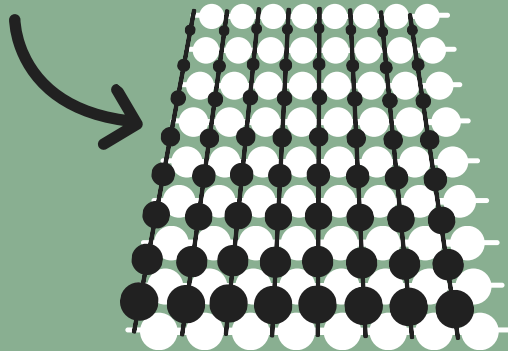

1. Tie the largest balloon of one of your vertical chains to the largest horizontal chain (8.5"). Do this between the last and second-last balloon of the horizontal chain.

2. Next, take the 8" horizontal chain and wrap the end balloon into the vertical chain directly above the first horizontal chain.

3. Continue this process, moving up the vertical chain with each horizontal chain, with each horizontal chain being smaller than the last.

4. Then, work across the horizontal chains, twisting in the vertical chains one-by-one. Continue until all your chains have been added in.

Process

5. Stand your 'lattice' up, with your largest balloons at the bottom.

6. Fold it inwards to form a hollow cone and tie together the balloons at each end to form a tapered cylinder.

Process

6. Tie in your coloured 3.5” balloons wherever you want on the tree to be your ‘baubles’.

7. Take two more linking balloons of around 4” and tie them in across the top of your tree.

Balloon Christmas Tree

By Naomi at Theballoonchristmastree BMTV 564

Process

8. Next, firmly tie in your star foil balloon at the top of your tree using a spare 260 entertainer balloon.

9. Now, carefully gauge where the face of the wearer will be when wearing the tree. Mark the balloon with a marker pen.

10. Safely deflate the balloon so your wearer can see.

11. Now, all your wearer needs to do is to squeeze themselves inside of the tree and to push out their arms between the rows of balloons!
