- Uglu Dashes

## Process - Sprinkles

1. Cut down or use a scrap from a previously used 260.

2. Inflate the balloon to the size you'd like and tie off both ends of the 260.

3. Cut off any excess latex and stick the sprinkle to your number foil using your adhesives.

## Process - Boiled Sweet

1. Inflate your 12" latex and tie the knot at the tip of the neck.

2. Squeeze the balloon to an oblong shape and cut the neck of the balloon after the knot.

3. Take your cellophane and wrap it around your balloon. Use tape where the cellophane meets.

4. Pinch the cellophane where the knot of the balloon is and twist.

5. Using your pink ribbon, first tie a knot around the twisted cellophane and then tie a bow.

6. Repeat steps 4 and 5 at the other end of the balloon, making sure the cellophane is tight to the end of the balloon.

7. Cut down each end of the cellophane to finish.

## Process - Lollipop

1. Inflate your Macaron Salmon 260 and make a twist around 6 inches (15cm) from the knot.

2. After your large bubble, make a pinch twist.

3. Follow the pinch twist with a loop twist.

4. Make a second pinch twist after the loop twist. Cut away and tie off the latex after this twist. This is the centre of your lollipop.

5. Inflate a Macaron Pink 260 and Tightly wrap the neck of this 260 around one of the pinch twists of your lollipop.

6. Bend the Pink 260 over the top of the loop twist you made.

7. Twist into the other pinch twist and cut away the excess latex and tie off.

8. Repeat steps 6 through 8 with your Macaron Pale Lilac 260. It will sit over the Pink 260.

9. Using your Pink Ribbon, tie a bow and stick this to the neck of the lollipop using your adhesives.
