Process

1. Lay a piece of fabric over the top of your base. Stick this to your latex balloons in multiple places using your adhesives.

2. Take your Trophy foil and tie this into the base using a 260.

3. Twist a basket and stick to your table cloth. (Find our basket tutorial [HERE](#))

4. Attach the trophy foil and your basket using adhesives to help keep your foil upright.

5. To make a strawberry, inflate a 4" Red heart balloon and a green 260.

6. With your green 260, twist one small bubble followed by three small loop twists.

7. Twist the bubble and loop twists amongst each other to lock them.

8. Deflate the rest of the 260 and tie it into your twists. Cut off any excess latex, including the knot.

9. Stick your strawberry leaves to the top of your heart foil.

10. Use a gold POSCA pen to draw the seeds of the strawberry.

11. Repeat steps 5 to 10 to make as many strawberries as you'd like.

12. Fill your basket with strawberries and stick others to your basket.

Process

13. To make your tennis racquets, inflate a 260 and measure how long you'd like your handle to be. Make a twist at this point.

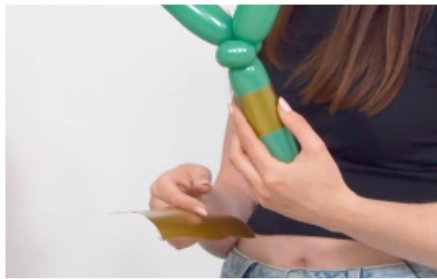

14. Next, follow the twist by making two pinch twists, one after the other.

15. Loop the long part of the 260 back on itself and tie this into the pinch twists.

16. To replicate the strings of the racquet, stick electrical tape horizontally and vertically to the back of the head of the racquet.

17. Apply vinyl to the handle to add detail.

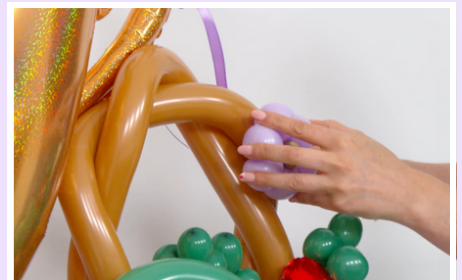

18. Repeat steps 16 to 20 to make a second racquet and stick them to your stack in front of the trophy.

19. To make a tennis ball, inflate a 5" Macaron Yellow balloon and draw the white seams with a marker pen. Stick the ball between the handles of the two racquets.

20. Tie some satin ribbon in a bow around each of the trophy handles.

21. Add any further details you wish and then your design is complete!
