Process

1. Make twenty duplets. Make ten in Aura Ice Blue and the other ten with one Mirror Space Grey and one Retro Denim in each.

2. Take one duplet and press the centre against the stand's pole. Then pull a duplet of a different colour over it from the opposite side. This will lock the duplets in place.

3. Repeat this process, moving up the pole. With each new quad, rotate it by 90 degrees to create a spiral pattern

4. Inflate and tie your 36" Mirror Space Gray latex to the top quad.

Process

1. Start by making four duplets using 11" balloons in Mirror Space Grey and Retro Denim.

2. Repeat step 1 with Aura Ice Blue and 5" Mirror Space Grey.

3. Stack two of each duplet from the base of the balloon pole, tapering upwards.

4. Tie in four 260s to the bottom 3" quad and twist them around the pole. Tie them off where they end.

5. Repeat step 3 inverted at the top of the pole. These balloons are a half-inch smaller than the stack below.

6. Tie your 36" latex to the top stack.

7. Add 5" triplets throughout your design for added detail.

Process

1. To make a 5-balloon cluster, first make a triplet of two Mirror Space Grey and a Denim balloon. Then, make a duplet of Aura Ice Blue.

2. Attach them to the pole in the same way as in the previous designs, pushing them through the pole and over the opposite cluster to lock them together,

3. Build upwards with your first cluster being 5", followed by a 7" and another 5". The next four rows will be 2". Repeat this.

4. Finally, top the design with a 36" balloon.
