## Process

1. Make 14 duplets of 12" latex inflated to 7.5" and 14 duplets of 5" latex inflated to 4.5"

2. To lock the balloons around the pole, start by placing the larger duplet on one side of the pole so the centre of the duplet is touching it.

3. Push this duplet towards the opposite side of the pole.

4. Take your smaller duplet and repeat step 2 and 3 pushing the duplet in the opposite direction to the larger duplet.

5. Push the smaller duplet down to secure.

6. Repeat steps 2 to 5, slightly rotating the angle of the pole so the clusters mimic a twist.

- Sempertex 5" Latex
- Sempertex 12" Latex
- Sempertex 6" Link-O-Loons

## Equipment

- Hand Pump
- Fishing Wire

## Process

Click the image to see it in action!

1. Make 14 duplets of 12" latex inflated to 7.5" and 14 duplets of 5" latex inflated to 4.5"

2. Take a cluster of each size and twist them together. Each balloon should be adjacent to the other of their matching size.

3. Take your wire and tie it to the centre of your first quad. Press this quad down and place a second quad on top of this at a slight angle. Use the wire to secure these together.

4. Repeat step 5 stacking quads one on top of the other, turning the angle as you go until your garland is full.

5. Inflate sixteen Link-o-loons to 4" inches and tie these together to form a chain.

6. Tie each end of your link-o-loon chain to a balloon neck within the garland.
