4. Tie the 260 around the valve to both create an attachment point, and hide the valve.

5. Repeat steps 3 to 5 with your Bingo foil.

6. Inflate four 5" Pink Rose Macaron latex to 4" and make a cluster.

7. Inflate four 5" Lemon Macaron latex to 2.5" and make another cluster. Attach this to your first cluster by twisting two balloons from each, around one another.

8. Place your Bluey and Bingo foils down so that they are at a 90 degree angle from each other with their bottom corners touching. Both characters should be facing inwards.

9. Place your heart foil between the bluey and bingo foils so that their hands are touching the heart. Attach this using your adhesive.

10. Place the Bluey and Bingo foils on your clusters and tie the 260s into them to secure the foils.

11. Tie a bow with your Yellow Satin Ribbon and stick it to the bottom of the heart foil.

12. Remove a daisy head from your artificial bunch and stick this in the Lemon cluster at the feet of your Bluey and Bingo foils.
